

Bendervac, a universal swimming pool suction cleaning head

Fast and tough for the professional

Simple and easy for the home pool cleaner

Ideal for concrete and liner pools

The Bendervac is tough enough for concrete pools and gentle enough for liner pools - and it's 18" (457mm) wide to speed up cleaning on all pools

Resists Pool Chemicals/Weather

The synthetic moulding weighs under 3kg and will resist all usual pool chemicals, remain flexible in cold conditions yet withstand tropical sunshine

No Corrosion

The Bendervac has no metal parts to rust, corrode or discolour

Flow Control

A half turn of the axles adjusts the brush height changing the flow pattern to suit the size of the pool pump
